COMPANY OVERVIEW

Precision Engineering Excellence

AL CHISHTY ENGINEERING WORK is a Ras Al Khaimah based engineering workshop delivering reliable, high-quality fabrication, machining, and mechanical solutions. We support industrial, construction, marine, and commercial requirements across the UAE with practical expertise, modern equipment, and a commitment to getting the job done right.

WHO WE ARE

A dedicated team of skilled professionals and technicians providing engineering solutions that are safe, precise, and built to last. We combine hands-on experience with modern tools to deliver consistent quality and dependable results.

AT A GLANCE

- ✓ Workshop-based engineering support across multiple sectors
- ✓ Custom fabrication and repair solutions tailored to your needs
- ✓ Practical execution with attention to detail
- ✓ Responsive customer service and dependable support

WHAT WE DO

We provide a comprehensive range of engineering services to meet diverse industry needs.

-  CNC & Precision Machining
-  Conventional Machining
-  Steel & Industrial Fabrication
-  Structural Steel & Mezzanine Work
-  Welding & Site Erection
-  Marine Repair & Mechanical Work
-  Sheet Metal Work
-  Laser Cutting

CORE STRENGTHS

Our strengths reflect our commitment to quality, safety, and customer satisfaction.

- ✓ Skilled workforce with hands-on expertise
- ✓ Modern equipment and well-maintained workshop
- ✓ Strong focus on quality, safety, and precision
- ✓ Custom solutions for unique project needs
- ✓ On-time delivery with practical execution
- ✓ Customer-focused approach and long-term partnerships

VISION, MISSION & CORE VALUES

Precision Engineering. Dependable Results.

OUR VISION

To be a trusted engineering and fabrication partner recognized for practical solutions, precision workmanship, and dependable execution that creates lasting value for our clients and community.

OUR MISSION

To deliver machining, fabrication, repair, and site support services with quality, safety, and commitment, consistently meeting customer requirements through skilled people, efficient processes, and the right engineering mindset.

OUR CORE VALUES

PRECISION

We deliver accurate work with attention to every detail.

INTEGRITY

We act with honesty, transparency, and accountability.

QUALITY

We maintain high standards in materials, workmanship, and finishing.

SAFETY

We prioritize the safety of our people, clients, and the work environment.

RELIABILITY

We do what we say and stand by the commitments we make.

CONTINUOUS IMPROVEMENT

We learn, adapt, and improve every day.

OUR WORKING MINDSET

Solution-Oriented

We focus on practical solutions that solve real challenges.

Workshop Discipline

We follow proven methods, maintain clean practices, and respect every detail.

Customer Focus

We listen, understand, and deliver what matters most to our clients.

Timely Coordination

We plan ahead, communicate clearly, and deliver on time, every time.

OUR STORY

ESTABLISHED IN 1990

Three Decades of Engineering. Built on Trust. Driven by Work.

Founded in 1990, **AL CHISHTY ENGINEERING WORK** began as a dedicated engineering workshop with a clear purpose — to deliver reliable workmanship, practical solutions, and lasting value.

From a modest beginning, we have grown steadily, expanding our capabilities, investing in people and technology, and building long-term relationships with clients across the UAE.

HOW WE HAVE EVOLVED

Over the years, we have transformed our workshop foundation into a multi-disciplinary engineering company. Our growth is built on hands-on experience, continuous improvement, and the ability to adapt to the needs of our clients and industries.

WHAT WE STAND FOR

We believe in doing the job right, every time. Our values are rooted in integrity, safety, quality, and respect for our people, clients, and the communities we serve.

TODAY'S CAPABILITY FOCUS

We deliver a comprehensive range of engineering solutions in machining, fabrication, repair, structural works, and site-support services — backed by skilled manpower, robust equipment, and a practical approach to execution.

WORKSHOP CAPABILITY

Well-equipped facilities and experienced engineers enabling precision machining, fabrication, and heavy-duty repair with consistency and control.

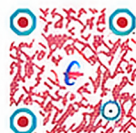

SERVICE DIVERSITY

From custom components to structural fabrication and site support, we serve a wide range of industrial, commercial, and infrastructure needs.

COMMITMENT TO EXECUTION

We focus on clear communication, timely delivery, and dependable results — ensuring our clients can count on us as a true engineering partner.

MACHINING & MECHANICAL SERVICES

Precision in Every Cut. Reliability in Every Repair.

At **AL CHISHTY ENGINEERING WORK**, we provide a complete range of machining and mechanical solutions for industrial, marine, and engineering applications. Our skilled team, modern equipment, and quality-focused approach ensure dependable performance and consistent results for every project.

CNC & PRECISION MACHINING

High-accuracy CNC turning, milling, and drilling for all types of components. Suitable for prototypes, single parts, and low to medium volume production.

CONVENTIONAL MACHINING

Manual machining services including lathe, milling, drilling, facing, boring and shaping. Ideal for maintenance, modifications, and general fabrication.

CUSTOM COMPONENTS

Manufacturing of custom parts and assemblies as per drawings or samples. We work with a wide range of metals to meet diverse industrial requirements.

ENGINE OVERHAULING

Complete overhaul of industrial and marine engines. Includes disassembly, inspection, reconditioning, replacement, and assembly for reliable performance.

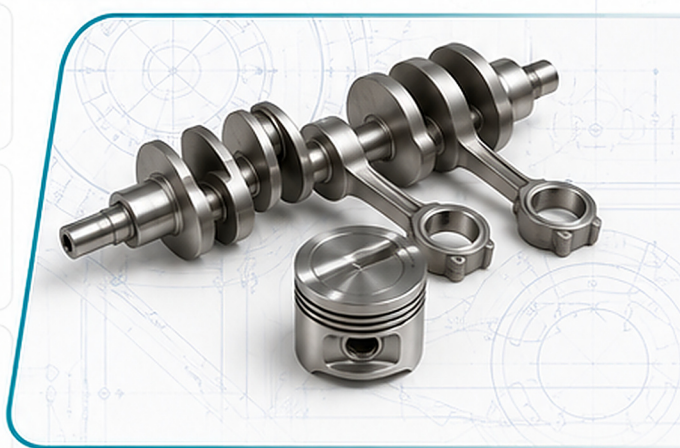

MARINE REPAIR & MECHANICAL WORK

Mechanical repair and maintenance services for marine engines and auxiliary equipment. On-site support available to reduce downtime and ensure smooth operations.

INSPECTION / MEASUREMENT SUPPORT

Dimensional inspection and verification using precision measuring tools to ensure parts meet the required standards and specifications.

FABRICATION, STRUCTURAL, SHEET METAL & LASER CUTTING

End-to-end fabrication and project execution from concept to completion — engineered with precision, built to perform.

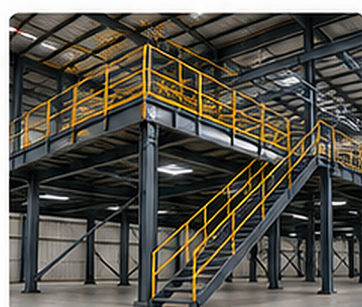

STEEL & INDUSTRIAL FABRICATION

High-quality fabrication of steel components and assemblies for industrial, commercial and infrastructure applications.

STRUCTURAL STEEL & MEZZANINE WORK

Design, fabrication and installation of structural steel, platforms, mezzanines, staircases and handrails with safety and durability at the core.

WELDING & SITE ERECTION

Certified welding processes and skilled site erection for structural and mechanical installations with strict adherence to quality and safety standards.

SHEET METAL WORK

Precision sheet metal fabrication including cutting, bending, forming and assembling for panels, enclosures, ducts, covers and custom components.

LASER CUTTING

High-precision laser cutting for mild steel, stainless steel and aluminum with clean edges, tight tolerances and fast turnaround.

INDUSTRIES, PROCESS, QUALITY & SAFETY

Delivering precision engineering solutions with a strong focus on quality, safety and customer satisfaction.

INDUSTRIES WE SERVE

- Industrial Manufacturing**
Supporting production lines, equipment and operational reliability.
- Construction**
Steel structures, brackets, frames and supporting components.
- Marine**
Marine fittings, repairs and mechanical support for vessels and facilities.
- Facilities & Maintenance**
Repair, refurbishment and ongoing maintenance services.
- Infrastructure**
Structural elements, platforms, handrails and utility supports.
- General Engineering Support**
Custom parts, assemblies and on-demand engineering solutions.

OUR WORKING PROCESS

QUALITY & SAFETY

- Quality Workmanship:**
Every job is manufactured with care and checked for fit, finish and dimensional accuracy.
- Material & Process Control:**
We use suitable materials and proven processes for reliable and durable results.
- Inspection & Verification:**
Practical checks at key stages and final inspection before dispatch.
- Safe Working Practices:**
Our team follows safety procedures and uses proper PPE and equipment.
- Site Awareness:**
We coordinate with site teams to ensure safe, smooth and efficient execution.

WHY CHOOSE AL CHISHTY

- Experienced Team:**
Skilled engineers and technicians with hands-on experience across diverse projects.
- Responsive & Reliable:**
Quick response, clear communication and commitment to timelines.
- Diverse Capabilities:**
Wide range of in-house services for end-to-end engineering solutions.
- Practical Solutions:**
We focus on functional, cost-effective and manufacturable solutions.
- Customer Commitment:**
We value long-term relationships and focus on meeting customer requirements.

ACTIVITY SNAPSHOT / SERVICE MATRIX

	LASER CUTTING Precision laser cutting for MS, SS & Aluminium with clean finish and accuracy.		STRUCTURAL STEEL WORK Fabrication of structures, frames, platforms, supports, handrails and staircases.
	SHEET METAL WORK Shearing, bending, rolling, punching and custom sheet metal fabrication.		STEEL FABRICATION Welding and fabrication of components, assemblies and heavy structures.
	CNC & CONVENTIONAL MACHINING Precision machining, turning, milling, drilling and boring.		MECHANICAL ASSEMBLY Assembly of mechanical components, sub-assemblies and equipment.
	ENGINE OVERHAULING Inspection, repair and overhaul of engines and mechanical systems.		MARINE & MECHANICAL SUPPORT Marine fittings, repairs, mechanical support and on-site assistance.
	FOUNDRY & CASTING SUPPORT Casting solutions and support for custom components.		ENGINEERING & DESIGN SUPPORT Drawing review, detailing support and engineering solutions.

PEB STRUCTURES & PARKING SHEDS

Custom engineered steel structures for industrial, commercial and site applications.

PEB STRUCTURES

- Industrial sheds and workshop buildings

- Warehouses and storage facilities

- Mezzanine-compatible structures

- Structural steel frames and support systems

- Roof and wall cladding-ready steelwork

PARKING SHEDS

- Car parking sheds for commercial & industrial sites

- Cantilever canopies and space-efficient designs

- Tensile or sheeted shade structures

- Entrance shelters and walkways

- Custom fabricated shelters to suit site requirements

TYPICAL SCOPE

- ✓ Concept & design coordination
- ✓ Detailed engineering & approval drawings
- ✓ Precision fabrication in our workshop
- ✓ Site delivery & erection support
- ✓ Finishing options & cladding installation
- ✓ Structural members & custom steel detailing

WHY AL CHISHTY

- ✓ Custom engineered solutions for every project
- ✓ Skilled fabrication with practical workshop capability
- ✓ Safe, timely and professional site execution
- ✓ Quality-focused processes from shop to site
- ✓ Proudly serving industries across the UAE

Precision Engineering Excellence

CHAIN LINK FENCE PROJECTS

مشاريع الشبوك السلكية

- ✓ Boundary fencing for industrial, commercial and facility sites
- ✓ PVC-coated or galvanized chain link solutions for long-lasting protection
- ✓ Swing and sliding gates with durable frames and fittings
- ✓ Fence posts, braces, and barbed wire top options
- ✓ Perimeter enclosures and secure compound installations
- ✓ Suitable for factories, yards, warehouses, utilities and infrastructure projects

INDUSTRIAL FABRICATIONS

التصنيع المعدني الصناعي

- ✓ Storage tanks and process tanks
- ✓ Silos for materials and bulk storage
- ✓ Steel staircases and mezzanine floors
- ✓ Access platforms and maintenance walkways
- ✓ Ladders, handrails and safety rail systems
- ✓ Structural steel frames and supports
- ✓ Custom-fabricated steel components as per drawings and specifications
- ✓ Workshop-manufactured for accuracy and reliability

BUILT FOR PRACTICAL PERFORMANCE

مصممة للأداء العملي

Durable materials and corrosion-resistant finishes

Fit-for-purpose solutions engineered for site conditions

Precision fabrication in our workshop

Strong focus on safety, quality and timely execution

APPLICATIONS / USE CASES

التطبيقات / حالات الاستخدام

Factories & Industrial Plants

المصانع والمنشآت الصناعية
